Mirage

Bottom Load Bottled Water Cooler

The Mirage is a modern bottle-fed water cooler that supplies three temperatures of water, providing a crisp cold, room temperature, or piping hot dispense output. The innovative bottom-loading design of the Mirage eliminates heavy lifting of water bottles. The bottles are stored below inside the cabinet, providing an attractive streamlined aesthetic. The push buttons located on top of the machine and a large dispensing area make it incredibly easy to use.

Ambient, Cold & Hot

Bottom loading means your bottles are positioned inside the cabinet and out of sight.
Suitable for standard 19L bottles.

Three dispense points for cold, cool and hot water.

Drip tray is durable and lifts out easy for cleaning and is dishwasher safe.

Mirage

Bottom Load Bottled Water Cooler

Key Features

OASIS BRAND

The OASIS brand is a recognized worldwide leader in the design and manufacturing of bottled and mains-fed water coolers.

SAFE

Child safety self-closing activation for Hot water, which requires a two-step action that is easy for adults to use, and protects small children
